PowerTerm® InterConnect Linux Edition

The complete host access solution for Linux platforms

PowerTerm® InterConnect (Linux edition) is Ericom® Software's host connectivity solution for organizations requiring fast and accurate access to data residing on the boardest and widest range of hosts. PowerTerm InterConnect provides secure access to applications residing on a wide range of hosts including: IBM AS/400, Unix, Linux, OpenVMS, Tandem and HP-3000. PowerTerm InterConnect is the complete connectivity solution for organizations seeking to access mission critical applications from Linux and Unix workstations.

Seamless connectivity

The PowerTerm InterConnect terminal emulator maximizes enterprise-wide productivity by enabling reliable access to accounting, inventory management, transaction processing and other mission-critical legacy applications. PowerTerm InterConnect provides seamless connectivity to the widest range of machine types and information systems.

SSH and SSL for secure access

For secure connectivity to host applications, PowerTerm InterConnect supports SSH and SSL/TLS security protocols.

Full line of terminal emulation types on widest range of hosts

PowerTerm InterConnect supports a full line of IBM (3270 and 5250 both display and printer), Digital, ANSI, Data General, Wyse, Televideo, Siemens, Tandem, HP, and other terminal emulation types. Its powerful and user-friendly interface provides a simple, fast and effective means of running legacy applications from within Linux and Unix platforms.

Maximize user efficiency and productivity

PowerTerm InterConnect boasts more features and faster key response than any competing solution.

Features include customizable function keys, multiple concurrent sessions, menu bar, scalable and selectable fonts, intelligent copy & paste, scripting, advanced printing, and more.

This full-featured client ensures fast, reliable connections for sharing information throughout the enterprise, regardless of host type.

PowerTerm InterConnect offers multiple language support: The GUI (including menu and dialog boxes) is available in English, German, French, Spanish and Italian, while the program supports dozens of other languages.

Simple to install

This full Linux and Unix terminal emulator is installed onto any workstation in just a few minutes. Once installed, users can connect for immediate usage. Its intuitive nature makes it the easiest to use emulator today, helping to minimize training and maintenance.

PowerTerm InterConnect is also available for Windows and macOS operating systems.

PowerTerm InterConnect (Linux Edition) Technical Specifications

Platforms Supported	All Linux distributions, including Red Hat, Fedora, SuSE, Ubuntu, Debian, and other major Unix platforms
Hosts Supported	IBM Mainframe, IBM AS/400, Unix, Linux, OpenVMS, Data General, SCO, Tandem, HP-3000
Terminals Emulated	IBM: 3270 (TN3270E), 5250 (TN5250), 3151 Digital: VT52, VT100, VT220, VT320, VT420, VT520, VT525, ANSI: BBS-ANSI, SCO-ANSI, AT386, AIX Term, Linux Wyse/TYI: Wyse 50/50+/60/370, Televideo TVI 910+/920/925/950/955 Others: Data General D-412, ADDS VP A2, HZ 1500, Siemens 97801, HP 700, Tandem 6530
Supported Interfaces	Ethernet, Serial Ports
Communication Modes	TN3270/TN3270E (RFC 1646 and 1647), TN5250/TN5250E (with device name support), Telnet, Serial, Modem
File Transfer	IND$FILE, Kermit (including get command), X Modem, Y Modem, Z Modem, transfer to/from clipboard, host initiated file transfer, remote file browsing, ASCII
Printing Support	Auto print mode, print screen, slave printing, IBM 3287 printer, IBM 3812 printer, SNA LU1 and LU3 support, advanced printing (i.e., LPI & CPI), host print transform, override host settings, CICS printing
Screen Support	Graphical drag & drop keyboard mapping, graphical color selection, customizable function keys, scalable fonts, status line, menu bar and toolbar, 80/l32 column width, variable lines per page, double width/height characters, blink, underline, reverse and more
Language Support	English; German; French; Spanish; Italian; Turkish; Greek; Dutch; Polish; Hungarian; Swedish; Czech; Danish; Norwegian; Finnish; Portuguese; Russian; and all other Eropean Languages
User Interface Support	English; German; French; Spanish and Italian
Security Features	SSL, SSH
Other Features	122 IBM keyboard support, keep-alive-timeout, multiple sessions, Power Script Language, save-lock-state, language code page support, macros, script recorder, history scroll bar for session review, intelligent copy & paste of blocks/lines/words/tables, programmable hotspots, status display for host and printer and much more

To download a FREE 30-day trial, click here
then choose your user environment and the terminal you wish to emulate in the TE Selector.
